**Additional terms and conditions for discussion sections**

This next section deals with the collaboration ability given to users who purchased the necessary role. This payment is to prevent spammers and to allow members to interact with other crypto enthusiasts in a more protected/private setting. Again, do your own due diligence on anything mentioned in these channels before you consider investing. If you're new, you can PM @UpNowAdmin for a short peak into the collaboration sections.

1. Absolutely DO NOT directly link to a confirmed rug /honeypot without CLEARLY mentioning it. When warning against a contract that is a scam/rug/honeypot, you're required to include "#scam" in the same message

2. You're required to do some basic checks before mindlessly linking a project. That means looking for common signs of a rug. If you don't want to do that, then don't link it or clearly mention that you have not done much or any research. Obviously, not every project is easy to check, but do your best

3. As always, keep discussion to the correct channels

3. Do not recommend your own project

4. No spamming recommendations

5. We will notify users if a recommendation is chosen

6. If a user would like to create a report on a recommendation themselves, (a) please do, that's awesome, and (b) please let us know
